Re: Halex Coil

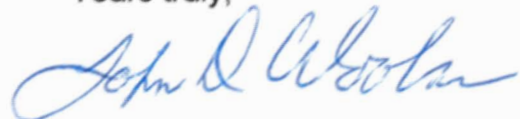

Dear Howard,

We at Alex Henry & Son & Arco Truck Lease regard this product as a great device. It has the potential to reduce wear in engines and hydraulic systems.

Through a number of years of testing this product in different applications, we believe it enhances the filtering system greatly. With a visual inspection of the filter when removed and opened, the particles can be seen stuck to the outer shell of the filter.

Thanks, Howard for introducing us to this device.

Yours truly,

John D. Woolner  
Maintenance Supervisor
